Darke Rural Electric Cooperative
Electric Vehicle – Level 2 Chargers Rebate
PROGRAM REQUIREMENTS
July 1, 2026 – June 30, 2027

The installation of an electric vehicle (EV) Level 2 (240-volt) charger in a home, office or other building which uses electricity from Darke Rural Electric Cooperative (Darke REC) qualifies for a rebate. The EV Level 2 charger may serve either a new or existing structure. **All requirements must be met to receive a rebate.**

A. SPECIFIC REQUIREMENTS

1. Qualified Equipment and Installation

- a. Qualifying Level 2 (240-volt) charger must be: new and unused; certified by Underwriters Laboratories, Inc. (U.L. Listed); and Edison Testing Laboratories (ETL) Listed.
- b. Equipment installed shall be in accordance with manufacturer's specifications and recommendations and shall meet applicable federal, state or local agency standards.
- c. Equipment installed shall be in compliance with the National Electric Code and local or Ohio Electric Code requirements.
- d. The complete system, including any necessary supplemental devices, shall be listed by Underwriters Laboratories or other nationally recognized testing organizations in accordance with U.L. standards.
- e. EV chargers that are portable, resold, rebuilt or received from warranty insurance claims are not eligible for rebates under this program.
- f. Level 2 charger must be wall or pedestal-mounted.
- g. Level 2 charger must be new and installed at member's service address.
- h. Verification through purchase and installation receipts that a new EV Level 2 (240-volt) unit was purchased and installed between July 1, 2025 and June 30, 2026 must be provided.

B. ELIGIBILITY FOR REBATE

1. The building must be a residential, commercial or industrial structure which uses electricity from Darke REC.
2. Rebate is to be paid to the Cooperative member who owns the building/facility, or for new construction, the rebate can be paid to the builder/dealer.

C. CONDITIONS OF REBATE

1. The Cooperative will need to make an on-site visit in order to confirm installation as submitted, before issuing the rebate.

D. REBATE

1. A \$250 rebate will be paid to the member on the basis of one rebate for each charging port installed in a residence. The rebate goes to the Cooperative member who owns the home, or for new construction, the rebate can be paid to the builder.
2. A maximum of two charging port rebates may be paid per residential consumer-member home.
3. A \$250 rebate will be paid to the member on the basis of one rebate for each charging port installed in a non- residential member-consumer facility. The rebate goes to the Cooperative member who owns the building, or for new construction, the rebate can be paid to the builder.
4. A maximum of six charging port rebates may be paid per non-residential commercial consumer-member building/ facility.

E. MISCELLANEOUS

1. Darke REC to determine if data commitment is required for rebate.

F. ANNUAL PROGRAM REVIEW

Darke REC Board of Trustees will annually review this program for continuation as applicable.
